EDUCATION

University of Maryland   College Park, MD
B.S. Mechanical Engineering (GPA 4.0)   Expected May 2026
University Honors   Expected Citation May 2024

SKILLS

CAD: SolidWorks, Autodesk Inventor, Siemens NX & NASTRAN, Fusion 360
Engineering: FDM 3D Printing, Waterjet, Machining, FEA, Soldering
Programming: Java, C++, MATLAB

EXPERIENCE

Terrapin Works   College Park, MD
Technician, Instructional Fabrication Lab   February 2023 - Present
- Trained other students and provided assistance on operating the lab's machines
- Completed customer orders while communicating with them to meet their needs
- Undergoing training and learning how to CAM for the CNC mill

UMD Loop   College Park, MD
Not-A-Boring Competition - Tunnel Support Member   September 2022 - Present
- Made parts and engineering drawings in Solidworks to communicate with manufacturers
- Ran FEA on components in NX to determine structural integrity and optimize designs
- Completed hand calculations and bolt-level analysis to justify and improve designs

Leatherbacks Combat Robotics   College Park, MD
1 lb, 12 lb, 30 lb Team - Member   September 2022 - Present
- Designed parts in Solidworks for robots in the 1 lb, 12 lb and 30 lb weight classes
- Manufactured parts for the 30 lb and 1 lb robot by operating the waterjet and drill mill
- Soldered all the necessary electronic components for an operational 1 lb robot

Dulaney FIRST Robotics Competition   Timonium, MD
Team President   September 2018 - May 2022
- Taught new members how to fabricate parts with metalworking tools and 3D printers
- Collaborated remotely in a design team of 4 members to complete the initial design of the robot with Autodesk Inventor within 2 weeks
- Managed a team of 20 members to fabricate and test a 125 lb robot within 6 weeks
- Supervised the programming subteam to help with debugging in Java as well as incorporating encoders and PID control loops for precise motor control
- Raised $5,000 via sponsorship outreach and presentations to operate the team

Dulaney VEX Robotics Competition   Timonium, MD
Club Secretary, Team Co-Captain   September 2018 - May 2022
- Mentored teams within our organization to help troubleshoot and test designs
- Collaborated in a team of 5 to design, build, and test a 18" x 18" x 18" robot
- Programmed with potentiometers and encoders in C++ to craft autonomous routines
